Maharashtra's Supplementary Examinations

-VidyarthiMitra News Desk
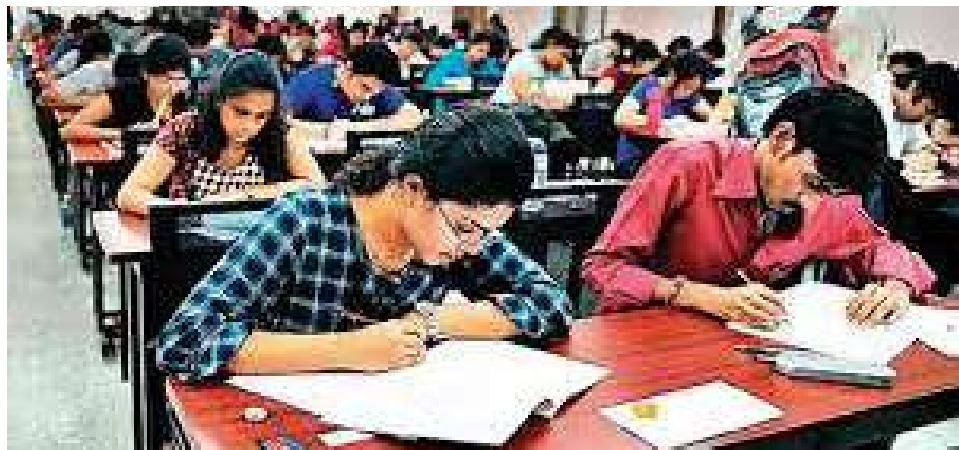

The Maharashtra State Board of Secondary and Higher Secondary Education (MSBSHSE) conducts Supplementary Examinations for both the Higher Secondary Certificate (HSC) and the Secondary School Certificate (SSC), offering students a crucial opportunity to overcome academic setbacks.

For students who haven't passed one or more subjects in the regular examinations, these supplementary exams serve as a lifeline. Whether it's the HSC or SSC, students are given a chance to clear their failed subjects and obtain their respective certificates. Conducted shortly after the declaration of the main examination results, these supplementary exams provide ample time for students to prepare. Students must register within the specified timeframe provided by the MSBSHSE to appear for these exams. These exams closely follow the pattern and syllabus of the regular examinations, ensuring fairness and consistency in evaluation. Under strict supervision, The supplementary exams represent an opportunity for redemption and academic advancement. With dedicated preparation and focused efforts, students can overcome their previous setbacks and achieve success. This not only enables them to obtain their certificates but also instills a sense of accomplishment and resilience for their future endeavors.

Maharashtra Commences Implementation of NEP 2020 in Autonomous Institutions

-VidyarthiMitra News Desk

Maharashtra is set to roll out the National Education Policy (NEP) 2020 across 144 autonomous institutions starting this academic year, with full implementation targeted for the 2024-25 academic year. The NEP 2020 introduces transformative changes to India's education system, replacing the 34-year-old National Policy on Education from 1986. Key reforms include the introduction of multiple entry and exit options in degree programs, the discontinuation of MPhil programs, and the addition of 3.5 crore seats in higher education institutions. This phased implementation will begin with 87 general and 57 professional institutions (Telegraph India).

Key Aspects of NEP 2020 Implementation in Maharashtra
Phased Implementation:
Phase 1: 87 general and 57 professional autonomous institutions will start implementing the NEP this academic year.
Autonomy in Curriculum: These institutions will leverage their autonomy to start courses aligned with NEP 2020.
Policy Goals:
Higher Education Reforms: Introduction of multiple entry and exit points within degree programs to offer greater flexibility.
Increase in Seats: Aiming to add 3.5 crore seats to higher education institutions to accommodate more students. higher education institutions to accommodate more students.
Discontinuation of MPhil: The MPhil programs will be phased out under the new policy.
Implementation Timeline:
By September 30, all universities in Maharashtra are required to declare their NEP implementation plans.
Finalized implementation plans must be completed by December 31.
Full implementation will begin on January 1, 2024, to ensure readiness for the 2024-25 academic year.
Autonomous Institutions:
The University Grants Commission (UGC) has granted autonomous status to 36 educational institutions.
These autonomous bodies are expected to serve as models for over 3,500 colleges in the state.
Strategic Goals:
Global Knowledge Superpower: The NEP aims to position India as a global leader in education by fostering innovation, critical thinking, and flexible learning paths.
The NEP 2020's comprehensive approach seeks to overhaul the Indian education system, making it more inclusive, flexible, and attuned to global standards. The focus on autonomy and phased implementation in Maharashtra underscores the state's commitment to transforming its educational landscape in alignment with national goals

Indian universities granted permission to conduct admissions twice a year by UGC!

-VidyarthiMitra News Desk

The University Grants Commission (UGC) has granted higher education institutions the authority to admit students twice a year. While previously, admissions were limited to July-August, the recent decision by the UGC enables admissions in January/February and July/August during the upcoming academic session. This decision, providing flexibility, allows institutions to decide whether to offer admissions in both cycles or just one, depending on their infrastructure and faculty. According to UGC Chairman M Jagadesh Kumar, the broader regulatory framework empowers institutions to implement the biannual admission system if they choose to do so. The UGC initiated this biannual admission process with open and distance learning (ODL) and online mode programs, finding that nearly half a million students who would have waited a year could now join in January. This move not only aligns with global practices but also has the potential to increase the Gross Enrollment Ratio (GER). Universities intending to commence a second session in January must seek approval from their academic and executive councils and make amendments to institutional regulations. This biannual admission system applies to PhD, postgraduate, and undergraduate programs. Regarding programs with entrance exams, the UGC Chairman noted that universities could now admit twice a year in PhD programs and offer biannual admissions in masters programs. Entrance exams, increasingly technology-driven, may transition to biannual schedules, benefitting students in the long run.

CBSE Supplementary Exams 2024: Dates Announced for Class 10 & 12 (Starts July 15)

-VidyarthiMitra News Desk

The Central Board of Secondary Education (CBSE) has released the tentative date sheet for the Class 10 and 12 supplementary exams for 2024. These exams are meant for students seeking to improve their performance in specific subjects.
Key Points:
Exam Dates: The supplementary exams will begin on July 15th, 2024.
Class 10: Exams for Class 10 will be held from July 15th to July 22nd, with most subjects scheduled for 10:30 AM to 1:30 PM. Computer Applications and Information Technology will be a two-hour exam held on July 22nd.
Class 12: Class 12 exams will be conducted on a single day, July 15th. Exam timings are expected to be similar to Class 10 (10:30 AM to 1:30 PM).
Syllabus: The exams will be based on the syllabus prescribed for the 2023-24 academic session. Final Date Sheet: This is a tentative schedule. The final date sheet will be issued after the deadline for submitting the "LOC" (likely referring to a form for registering for supplementary exams).
Important Note:
Students who appeared for the regular Class 10 and 12 exams in 2024 and wish to improve their scores in specific subjects are eligible to register for these supplementary exams.
Additional Information:
The CBSE Class 10 and 12 results for the regular exams were declared on May 13th, 2024.
The pass percentage for Class 10 was 93.60%, while Class 12 recorded a pass percentage of 87.98%.
Students who intend to take the supplementary exams are advised to monitor the official CBSE website for updates and the final date sheet release.

JoSAA 2024 Applications Open Today: Key Information for IIT, NIT Admissions

-VidyarthiMitra News Desk

The Joint Seat Allocation Authority (JoSAA) has begun accepting applications for the 2024 academic year. Starting today, June 10th, eligible candidates can register and fill their choices for admission to premier engineering institutes in India.

Who can apply?
Students who qualified for JEE Advanced 2024 and meet the JEE Main cut-off are eligible to register for JoSAA counselling.

How to apply?
1. Visit the official JoSAA website: https://josaa.nic.in/
2. Register using your JEE Main application number and password.
3. Fill in your preferred choices of courses and colleges after completing registration.

Important Dates:
1. Registration and Choice Filling: Starts today, June 10th, and ends on June 18th.
2. Seat Allocation: Five rounds of seat allocation will be conducted based on candidate rank and preferences.
3. Reporting to Allotted Institute: Specific dates will be provided to candidates after seat allocation.

seat allocation.

What institutes are included?
• JoSAA facilitates admission to top engineering institutions, including:
• Indian Institutes of Technology (IITs)
• National Institutes of Technology (NITs)
• Indian Institutes of Information Technology (IIITs)
• Some Government Funded Technical Institutes (GFTIs)

Additional Information:
• The seat allocation process considers both JEE Main and JEE Advanced scores.
• Pre-payment of the JoSAA seat acceptance fee also starts today on the official website.

Remember:
• Register and fill your choices before the deadline (June 18th) to participate in the JoSAA counselling process.
• Carefully review your choices before locking them in.
• Follow the official JoSAA website for updates and detailed instructions throughout the counselling process.

KTET Admit Card Released: Download Now for Exams on June 22nd & 23rd

-VidyarthiMitra News Desk

The Kerala Pareeksha Bhavan (KPB) has released the admit cards for the Kerala Teacher Eligibility Test (KTET) 2024. Registered candidates can download their admit cards from the official website: https://ktet.kerala.gov.in/.

Here's what you need to know:
• Download your admit card: Use your application number
• and password to log in and access the admit card.
• Exam Dates: The KTET exam will be conducted on June 22nd
• and 23rd, 2024.
• Exam Format: Pen and paper based test with a duration of 150 minutes.
• Marking Scheme: +1 mark for each correct answer, no
• negative marking for incorrect answers.
• Number of Questions: Each category-specific paper
• will have 150 multiple-choice questions.

What the Admit Card Contains:
• Candidate details (name, roll number, exam category, gender) Photograph and signature
• Exam date, time, and reporting time at the center
• Exam day guidelines
• Center address

KTET Exam Categories:
• Category 1: Classes 1 to 5
• Category 2: Classes 6 to 8
• Category 3: Classes 8 to 10
• Category 4: Language teachers (Arabic, Urdu, Sanskrit, Hindi) & Specialist/Physical Education teachers (up to upper primary level)

Downloading Steps:
1. Visit the official website: https://ktet.kerala.gov.in/
2. Click on the "KTET Admit Card" link on the homepage.
3. Enter your application number and password.
4. Log in and download your admit card.
5. Save it for future reference.

Important Note:
The admit card is a mandatory document required for appearing in the exam. Make sure to download, print, and carry a copy of your admit card to the exam center.

140 DU Students Selected for Vice Chancellor's Internship Program

-VidyarthiMitra News Desk

The University of Delhi (DU) is offering valuable real-world experience to a select group of students through its Vice Chancellor Internship Scheme (VCIS) for the 2024-2025 academic year. From a competitive pool of 1,542 applicants boasting a minimum SGPA of 8.18, only 140 students were chosen to participate. These lucky interns will gain firsthand knowledge of university administration from June to July.

Selection involved a rigorous three-day group discussion round conducted by the Dean of Students' Welfare (DSW) office, ensuring the chosen students possess the necessary communication and collaboration skills. The internship itself is designed with flexibility in mind, requiring a commitment of 20 hours per week. To incentivize participation, each intern receives a Rs 10,500 stipend. Upon successful completion of the program, interns will be awarded a certificate from the DSW, a valuable addition to their academic portfolio.

Launched in the 2022-2023 academic year, the VCIS program has quickly become a sought-after opportunity. It provides undergraduate and postgraduate students with the chance to enhance their skills through practical experience within the university system. This exposure to university administration fosters student development and equips them with valuable insights that can benefit their future careers. Ultimately, the VCIS program creates a win-win situation for both DU and its students. The university benefits from the fresh perspectives and energy of the interns, while students gain practical experience and a deeper understanding of university operations.

IISER IAT 2024: Answer Key Released, Raise Objections by June 14th

-VidyarthiMitra News Desk

Calling all aspiring scientists! The Indian Institutes of Science Education and Research (IISERs) have released the provisional answer key for the IISER Aptitude Test (IAT) 2024. This is great news for students who took the exam on June 9th, allowing them to estimate their performance and potentially challenge any discrepancies.

Key Dates:
• June 12th - 14th: This crucial window allows students to upload their response sheets and raise objections against the answer key if they believe there are any errors. Don't miss this opportunity to ensure your score reflects your knowledge!
• June 21st: Mark your calendars! The final answer key for IAT 2024 will be released on this date. This finalized key will be used for official score calculation.

Exam Breakdown:
The IISER IAT is a computer-based test (CBT) that serves as the gateway to prestigious science institutes in India. The exam tests your knowledge across core scientific disciplines:
1. Biology
2. Chemistry
3. Mathematics
4. Physics

Each section contains 15 multiple-choice questions, with only one correct answer per question. The total score for the exam is 240. A correct answer earns you 4 marks, while an incorrect answer deducts 1 mark. Remember, there's no penalty for leaving a question blank!

Calculating Your Score (Unofficial): While you wait for the official results, you can estimate your score using the provided guidelines. Simply add 4 marks for each correct answer on the answer key and subtract 1 mark for each incorrect answer. Questions you left blank won't affect your score.

Challenging the Answer Key:
If you disagree with any answer on the provisional key, you can raise an objection between June 12th and June 14th. The official website (https://iiseradmission.in/) provides a clear process for submitting objections:
1. Log in using your credentials.
2. Access the answer key.
3. Locate the specific question you want to challenge.
4. Provide any supporting documents to strengthen your objection.
5. Submit your objection and save a copy for reference.

What's Next?
The IISER IAT score plays a crucial role in securing admission to top science institutes like IISER Berhampur, Kolkata, Bhopal, Pune, Thiruvananthapuram, Mohali, and Tirupati. These institutes offer exciting five-year BS-MS (dual degree) and four-year BS degree programs in various science fields.

By staying informed about the answer key, the objection process, and upcoming updates on the IAT 2024 results, you can confidently navigate the admissions journey for your dream IISER program. Don't forget to monitor the official website (https://iiseradmission.in/) for the latest information.

PM Modi Introduces Major Education and Infrastructure Projects

-VidyarthiMitra News Desk

On June 13, 2024, Prime Minister Narendra Modi unveiled a series of transformative educational and infrastructural projects across India, with a significant focus on advancing the development landscape of Jammu and Kashmir. These initiatives represent a substantial investment totaling ₹43,875 crore aimed at enhancing educational infrastructure and fostering comprehensive growth nationwide A cornerstone of this endeavor was the inauguration of the All India Institute of Medical Sciences (AIIMS) in Vijaypur, Jammu. This flagship institution features a 720-bed hospital, a medical college offering 125 seats, a nursing college with 60 seats, and an AYUSH block, marking a significant enhancement in healthcare facilities and medical education capabilities in the region.

The establishment of AIIMS underscores the government's commitment to improving healthcare access and quality across underserved areas . Alongside AIIMS, Prime Minister Modi inaugurated permanent campuses for several esteemed institutions. These include three new Indian Institutes of Management (IIMs) located in Visakhapatnam, Jammu, and Bodh Gaya, and four Indian Institutes of Technology (IITs) in Bhilai, Tirupati, Jammu, and Kharagpur. These new campuses are equipped with state-of-the-art facilities designed to promote advanced research, innovation, and education across diverse disciplines, thereby fostering intellectual capital and industry-academia collaboration Furthermore, the inauguration of the Indian Institute of Skills (IIS) in Kanpur marked another significant milestone. The IIS is dedicated to providing specialized training in modern technologies, addressing the evolving demands of the industry and enhancing employability skills among the youth. Additionally, the establishment of 20 new Kendriya Vidyalayas and 13 Navodaya Vidyalayas across various regions of India aims to strengthen school-level education infrastructure and ensure equitable access to quality education for students from diverse socio-economic backgrounds .

In parallel, substantial investments were made to upgrade the infrastructure of multiple higher educational institutions. Projects included the construction of new hostels, academic blocks, libraries, and auditoriums at institutions such as IIT Jammu, NIT Delhi, IIT Kharagpur, and the Central University of Kerala. These enhancements are geared towards enriching the learning environment, supporting research initiatives, and accommodating a growing student population .

These initiatives are part of a holistic strategy by the government to strengthen educational and healthcare infrastructure across the country. They are aimed at fostering regional development, particularly in areas like Jammu and Kashmir, while contributing to India's broader socio-economic advancement. By bolstering educational facilities and expanding healthcare access, the government seeks to empower communities, enhance human capital, and drive inclusive growth.

JEE Advanced 2024 (National Level)

-VidyarthiMitra News Desk

The JEE Advanced exam stands as the ultimate challenge for aspiring engineers in India. It's your chance to secure a coveted seat at one of the esteemed Indian Institutes of Technology (IITs), renowned for their world-class engineering programs. But be prepared for a rigorous test of your knowledge and skills.

The Ultimate Goal: If cracking the IITs is your dream, then conquering JEE Advanced is the key.

This exam serves as the sole gateway to admissions for undergraduate engineering programs at these prestigious institutions.

Eligibility: A Selective Process Not everyone gets to attempt JEE Advanced.

Only the top 2.5 lakh rank holders in JEE Main, another national-level engineering entrance exam, are eligible to take this next step. So, excelling in JEE Main is the first hurdle you need to overcome.

The Exam Format: Brace Yourself The exam itself is a two-day affair, consisting of two three-hour papers. Each paper will delve deep into your understanding of Physics, Chemistry, and Mathematics, the fundamental pillars of engineering. Be prepared to demonstrate your problem-solving abilities, analytical skills, and in-depth knowledge of these core subjects.
Website: https://jeeadv.ac.in/

MHT CET 2024 (State Level)

-VidyarthiMitra News Desk

MHT CET (Maharashtra Common Entrance Test) paves the way for aspirants seeking admission to engineering, pharmacy, and agricultural programs in Maharashtra. The exam for the PCM (Physics, Chemistry, and Mathematics) group is scheduled from June 20th to 24th, 2024.

Eligibility: Ensure you've completed your 10+2 exams with subjects as per the course you're applying for (e.g., Physics, Chemistry, and Biology for Pharmacy).

Exam Structure: The exam format involves multiple-choice questions focusing on Physics, Chemistry, and Mathematics for engineering aspirants. Hone your test-taking skills and revise core scientific concepts.

Important Points to Remember:
The application process usually starts in January and ends in March. Don't miss out on crucial deadlines! Check the official website for confirmation.
Since it's an online exam, practising online test-taking strategies can be beneficial.
Website: https://cetcell.mahacet.org/

CUET (UG) 2024 (National Level)

-VidyarthiMitra News Desk

- Exam Dates: Typically held in July/August. However, confirm the exact dates on the official website closer to the exam.
- Purpose: The Central Universities Entrance Test (CUET) serves as a single entrance exam for undergraduate admissions to various Central Universities across India, including some universities in Maharashtra.
- Eligibility: Eligibility criteria might vary depending on the university and program you're applying to. Generally, you'll need to have passed your 10+2 exams with a minimum percentage requirement. Check the specific university's website for details.
- Structure: The exam format is modular, meaning you'll take multiple sections based on the program you're applying for. These sections can cover subjects like:
- Language (English, Hindi, and other regional languages)
- Domain-specific subjects relevant to your chosen program (e.g., Physics, Chemistry, Biology for science courses; History, Political Science, Economics for social science courses)
- General Knowledge and Awareness
·   Important Points to Remember:
- The specific subjects you need to take will depend entirely on the program you're applying for. Carefully review the program details and exam syllabus on the university's website.
- Applications typically open in March/April. Don't miss the deadline!
- Since the exam covers multiple subjects, a well-structured study plan considering all sections is crucial.
·   Website: While an official website isn't available yet, you can find updates on University Grants Commission (UGC) India

BITSAT 2024 (Second Session: State Level)

Unveiling Your Path to BITS Pilani:
BITS Pilani, a prominent name in Indian engineering education, beckons aspiring engineers through its entrance exam, BITSAT. The second session of BITSAT 2024 is scheduled for June 16th to 26th, offering you a chance to secure a seat at one of their esteemed campuses in Pilani, Goa, or Hyderabad.
Eligibility:
Have you successfully completed your 10+2 exams?
Do you possess a strong foundation in Physics, Chemistry, and Mathematics?
Are you confident in your English language proficiency?
Exam Structure:
Get ready for an online test designed to assess your knowledge across various domains. The exam will be divided into four sections:
Physics & Chemistry: Brush up on your scientific concepts and problem-solving skills to tackle these sections.
English Proficiency & Logical Reasoning: Demonstrate your ability to comprehend English language and think critically in this section.
Mathematics (or Biology for B.Pharm): Depending on your chosen program (engineering or B.Pharm), you'll face questions in either Mathematics or Biology.
Important Points to Remember:
Applications for the second session typically close in early June. Don't miss the deadline! (Double-check on the official website for confirmation).
Hone your online test-taking strategies to feel comfortable with the format of the exam.
Practice solving problems efficiently and effectively to manage your time effectively during the test.
Website: https://bitsadmission.com/

-VidyarthiMitra News Desk
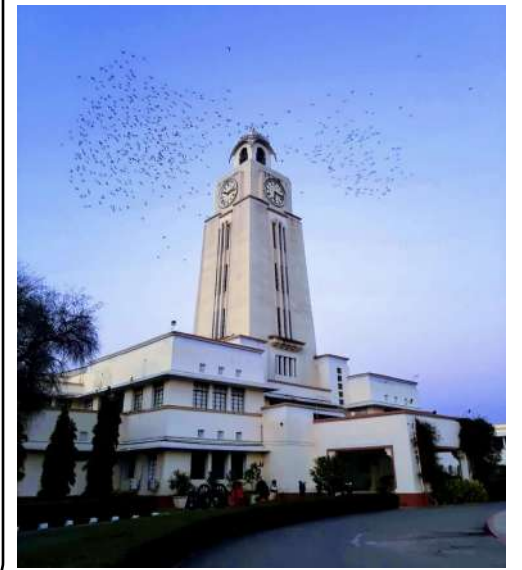

COMEDK UGET 2024 (State Level)

-VidyarthiMitra News Desk

COMEDK UGET serves as the key to pursuing undergraduate engineering courses at various universities in Karnataka. Mark June 25th, 2024, on your calendar if you aspire to study engineering in this state.
- Eligibility: Have you completed your 10+2 or equivalent exams with Physics, Chemistry, and Mathematics? If yes, you might be eligible to take COMEDK UGET.
- Exam Structure: Get ready for a computer-based online exam consisting of 180 multiple-choice questions (MCQs) divided equally among Physics, Chemistry, and Mathematics. Sharpen your problem-solving skills and brush up on important concepts from these subjects.
- Important Points to Remember:
1. Online registration typically starts in January and closes in April. Double-check the official website for confirmation to avoid missing deadlines.
2. Practice solving MCQs efficiently to manage your time effectively during the exam.
- Website: While the provided website (https://collegedunia.com/exams/comedk-uget/news) might not be the official one, use it to find the official COMEDK UGET website.

IISER Aptitude Test (IAT) 2024 (National Level)

-VidyarthiMitra News Desk

- Exam Dates: Typically held in July. Again, confirm the exact date on the official website closer to the exam.
- Purpose: The IISER Aptitude Test (IAT) is the gateway to prestigious Indian Institutes of Science Education and Research (IISERs) located across India. These institutes offer integrated BS-MS programs in various science subjects.
- Eligibility: If you've passed your 10+2 exams with Physics, Chemistry, and Mathematics and possess a strong foundation in these subjects, you might be eligible for IAT.
- Structure: The exam consists of multiple-choice questions focusing on Physics, Chemistry, Mathematics, Biology (optional), and Analytical Reasoning.
- Important Points to Remember:
  - The application process typically starts in March/April. Be sure to check the official website for deadlines.
  - Mastering scientific concepts and problem-solving skills is essential for excelling in the IAT.
  - While Biology is an optional section, taking it might give you an edge depending on the program you're applying for.
- Website: https://iiseradmission.in/examination/iat.html

MPSC Engineering Services Exam 2024

-VidyarthiMitra News Desk

The MPSC Engineering Services Exam 2024 is also set for June 2024. This examination is crucial for engineering graduates aspiring to secure positions in various engineering departments under the Maharashtra government. Eligibility criteria include holding an engineering degree in the relevant discipline and meeting the age requirements as per category norms. The exam consists of a preliminary test, a mains test, and an interview. The prelims focus on general engineering knowledge, while the mains are subject-specific. Candidates must submit their applications online through the MPSC website, including necessary documents and the application fee. This exam demands a strong grasp of technical subjects and problem-solving skills

VTUEEE 2024 (Phase 2: State Level)

-VidyarthiMitra News Desk

Unlocking the Doors to Vel Tech University:
If you dream of studying engineering at Vel Tech University, crack VTUEEE, their entrance exam. Phase 2 of VTUEEE 2024 is your chance, held from June 20 to 23rd.
- Eligibility: The minimum percentage requirement varies, so check the official VTUEEE website for details. Ensure you've passed your 10+2 exams.
- Exam Structure: A multiple-choice question (MCQ) based exam testing your knowledge of Physics, Chemistry, and Mathematics. Brush up on your formula applications and problem-solving techniques.
- Important Points to Remember:
- The application process typically involves filling out an online form on the official VTUEEE website. Check their website for specific deadlines and instructions (The provided website might not be the official one, use it to find the official VTUEEE website).
- Focus on mastering MCQs and time management strategies for this exam.

MPSC State Service Prelims 2024

-VidyarthiMitra News Desk

The MPSC State Service Prelims 2024 is scheduled for June 2024. This important examination recruits candidates for various prestigious administrative roles within the Maharashtra state government, including positions such as Deputy Collector, Deputy Superintendent of Police, and Tehsildar. To be eligible, candidates must possess a graduate degree from a recognized university and meet the specified age criteria, which vary according to category norms. The exam format includes two objective-type papers: General Studies and the Civil Services Aptitude Test (CSAT). Candidates must apply through the official MPSC website, providing all necessary details and documents, and paying the required application fee. Given the highly competitive nature of this exam, thorough preparation covering the Maharashtra-specific syllabus and current affairs is essential

NEST (National Entrance Screening Test) 2024 (National Level)

-VidyarthiMitra News Desk

- Exam Dates: June 30th, 2024 (The exam has already passed for 2024 as of today June 11, 2024)
- Purpose: The National Entrance Screening Test (NEST) is the entrance exam for admission to the National Institute of Science Education and Research (NISER), Bhubaneswar. NISER offers integrated MSc programs in various science subjects.
- Eligibility: Similar to IAT, you'll likely need to have passed your 10+2 exams with Physics, Chemistry, and Mathematics for eligibility.
- Structure: The exam format involves multiple-choice questions in Physics, Chemistry, Mathematics, and Biology.
- Important Points to Remember:
- Since the exam has already passed for 2024, keep this information for future reference if you plan to take NEST next year.
- The application process typically starts in February/March.
- Strong fundamentals in science subjects and the ability to solve problems effectively are key to success in NEST.

Indian Institute of Packaging Announces Admissions for Academic Year 2024-25

-VidyarthiMitra News Desk

The Indian Institute of Packaging (IIP), an autonomous body under the Ministry of Commerce & Industry, Government of India, has opened admissions for the academic year 2024-25. IIP is the apex institute providing premier education in packaging technology, with its head office in Mumbai and regional offices in Delhi, Chennai, Kolkata, Hyderabad, Ahmedabad, and Bengaluru.

Courses Offered:

Post Graduate Diploma in Packaging (PGDP):
- Eligibility: Candidates must have completed a full-time graduate degree in Science (12th + 3 years degree, totalling 5 years in science) with Physics, Chemistry, Mathematics, Microbiology, or Biochemistry as the main or secondary subjects, or hold a degree in Agriculture, Food Science, Polymer Science, or Engineering/Technology from an AICTE-recognized university with at least a second-class standing.

Master in Packaging Technology (M.S.):
- Eligibility: Candidates should have completed a full-time graduate degree in Engineering & Technology or a four-year graduate degree in Science. This program is affiliated with Jawaharlal Nehru Technological University, Hyderabad.
- Important Dates:
- Last Date for Application Submission: 10th July 2024 (Applications can be submitted online or offline)
- Entrance Examination (IIPCET): 14th July 2024 (The exam will be conducted offline at centres in Mumbai, Delhi, Kolkata, Hyderabad, Ahmedabad, Chennai, and Bangalore)

Contact Information:
- Mumbai: +91 22 69192242-5; Mobile: 8939365583
- Kolkata: +91 33 2367 0763/6016; Mobile: 8017219939
- Ahmedabad: +91 079 29600700; Mobile: 9586494842
- Hyderabad: +91 40 23814321; Mobile: 9874222396

For more details and to submit applications, candidates can visit the IIP website at www.iip-in.com.

Email inquiries can be directed to: onlinepgdp@iip-in.com or tneiip1@iip-in.com.

Prepare to join the leading institution in packaging technology and advance your career with IIP's esteemed programs. Apply now and secure your future in the dynamic field of packaging.

SCHOOL OF PHYSICAL SCIENCES COIMBATORE

-VidyarthiMitra News Desk

Applications are Invited from eligible candidates for admission to
U.G., P.G. & 5 year Integrated Programs
Programs :
Integrated M.Sc. in Physics
Integrated M.Sc. in Chemistry
Integrated M.Sc. in Data Science
Integrated M.Sc. in Mathematics & Computing
M.Sc. Physics
M. Sc. Chemistry
M.Sc. Mathematics
M.Sc. Applied Statistics & Data Analytics
M.Sc. Data Science with Logistic & Supply Chain Management
Ph.D in Physics/Chemistry/Mathematics/Statistics/Computer Science/Food Science
Selection Procedure: Based on the marks obtained in the qualifying examination & interview
B.Sc (H) Food Science & Nutrition (4 Yrs)*
Selection Procedure: Based on AEEL rank & HSE marks
Salient Features of the Programs :
State of the art research labs
Experienced Faculty members
Guidance in preparation of the national level scholarship test like GATE/CSIR-NET/TIFR
Hostels for Boys and Girls Placement assistance
Project based learning
IMPORTANT DATES
Last Dates:PG 30th June 2024

IITTM Admission 2024: Online Application for MBA/BBA (Tourism & Travel) Programs

-VidyarthiMitra News Desk

The Indian Institute of Tourism and Travel Management (IITTM) is now accepting online applications for its BBA and MBA programs in Tourism & Travel for the 2024 academic session. Candidates can apply exclusively through the online mode. The available seats for each program are as follows: MBA – 750 seats, and BBA – 375 seats.

Eligibility Criteria:
For the MBA program: Candidates must possess a Bachelor's degree from a recognized university, either Indian or foreign. For the BBA program: Candidates must have completed the 10+2 examinations in any subject from a recognized university or board, with at least 50% marks.

Candidates must participate in all three stages of the screening process: (a) Written Test: IITTM Admission Test (IIAT) 2024 SCORE CARD: CUET, (b) Group Discussion, and (c) Personal Interview. Students are required to pay academic and hostel fees on a semester basis at their respective IITTM center according to the payment schedule.
Eligible and interested candidates should complete the online application form. Fill in all required details and upload a recent passport-size photograph, signature, and other necessary certificates in the designated sections. Review all information before submitting the application form. Keep a printed copy for future reference.

Important Dates:
Announcement of Admission/Merit List:
June 15, 2024
Deadline for Admission Fee Payment:
June 30, 2024
Start of Academic Session: July 15, 2024

PGIMER Nursing 2024

-VidyarthiMitra News Desk

The Postgraduate Institute of Medical Education and Research (PGIMER) conducted admissions for various nursing programs in 2024, with the application window open from June 11 to July 8. Similar to AIIMS, eligibility criteria included completion of 10+2 with relevant science subjects and age criteria. PGIMER, a prestigious government medical university, offered a diverse range of nursing programs aimed at equipping students with the necessary skills and knowledge to excel in the healthcare field. The institute's emphasis on research and practical training ensured that graduates were well-prepared to meet the demands of the dynamic healthcare industry.

IIIT Bhubaneswar

-VidyarthiMitra News Desk

IIIT Bhubaneswar, an autonomous government institution, specializes in information technology and allied sciences. The institute offers undergraduate engineering programs with admissions conducted through JEE Main, specifically catering to Odisha candidates. The application deadline for admission was June 16, 2024. IIIT Bhubaneswar is known for providing high-quality education and research opportunities, preparing students for successful careers in IT and related fields. With a focus on practical learning and industry exposure, the institute equips students with the skills and knowledge necessary to thrive in the competitive technology sector. IIIT Bhubaneswar's emphasis on innovation and entrepreneurship further enhances students' prospects for professional success in the rapidly evolving digital landscape.

Joint Admission Counselling (JAC) Chandigarh

-VidyarthiMitra News Desk

JAC Chandigarh facilitated admissions to various undergraduate engineering programs in the Chandigarh region, including institutions like Punjab Engineering College (PEC) and University Institute of Engineering and Technology (UIET). The application deadline was June 23, 2024, with admissions based on JEE Main scores. These institutions, known for their academic excellence and state-of-the-art facilities, provided a conducive environment for engineering aspirants to thrive. JAC Chandigarh's comprehensive counseling process ensured that students were guided towards the best-suited engineering colleges based on their interests and aspirations.

Indian Institute of Science (IISc) Bangalore

-VidyarthiMitra News Desk

IISc Bangalore stands as a premier government research institution, offering BTech courses with admissions conducted through JEE Advanced. The application deadline for aspiring students was June 17, 2024. Renowned for its advanced programs in science and engineering, IISc Bangalore attracts top students from across the country. The institute's academic and research environment is exceptional, fostering innovation and interdisciplinary collaboration. With world-class faculty and state-of-the-art facilities, IISc Bangalore provides students with unparalleled opportunities for academic and personal growth. The institute's commitment to excellence ensures that graduates are well-equipped to make significant contributions to their respective fields.

On August 1, 2022, the Press Information Bureau announced that the "Unified District Information System for Education Plus" (UDISE+) 2020–21 recognized more than 28 languages for instruction in grades 1–5. These languages encompass Assamese, Bengali, Gujarati, Hindi, Kannada, Konkani, Malayalam, Meitei (Manipuri), Marathi, Nepali, Maithili, Odia, Punjabi, Sanskrit, Sindhi, Tamil, Telugu, Urdu, English, Bodo, Khasi, Garo, Mizo, French, Hmar, Karbi, Santhali, Bhodi, and Purgi. The revised education policy follows a holistic structure (5+3+3+4), prioritizing student needs and fostering entrepreneurship over dependence on government employment. A notable alteration includes the introduction of a foreign language and the flexibility to select various academic streams post-Class 8.

Following the release of the policy, the government emphasized that the language provisions within the National Education Policy (NEP) act as overarching principles, delegating the execution to states, institutions, and schools. A comprehensive language strategy will be incorporated into the National Curriculum Framework by 2021. It was highlighted that certain institutions, such as Sardar Patel Vidyalaya, had embraced this language policy six decades ago. Moreover, both the Education Policy of 1986 and the Right to Education Act of 2009 advocated for the use of the mother tongue as a suggestive guideline.

SCHOOL EDUCATION

-VidyarthiMitra News Desk

The policy places significant emphasis on ensuring that all students achieve foundational literacy and numeracy skills by Grade 3. It states that the top priority of the education system is to attain universal foundational literacy and numeracy in primary schools by 2025. It asserts that the success of other aspects of the policy hinges on this fundamental learning requirement, which includes proficiency in reading, writing, and arithmetic at the foundational level. Consequently, the Ministry of Education will establish a National Mission on Foundational Literacy and Numeracy as a matter of urgency. In response, all State/UT governments will promptly devise implementation plans to ensure universal foundational literacy and numeracy in primary schools, setting stage-wise targets and goals to be met by 2025, and rigorously monitoring progress. Subsequently, the NIPUN Bharat Mission (National Initiative for Proficiency in Reading with Understanding and Numeracy) was launched on July 5, 2021, to realize this objective. The conventional "10 + 2" educational structure will be replaced with a more nuanced "5+3+3+4" model, which will be implemented as follows:

1. Foundational Stage: This phase will be divided into two segments: three years of preschool or anganwadi, followed by Classes 1 and 2 in primary school, catering to children aged 3–8 years. The emphasis will be on fostering learning through activities.
2. Preparatory Stage: Covering Classes 3 to 5 and ages 8–10 years, this stage will gradually introduce subjects such as speaking, reading, writing, physical education, languages, art, science, and mathematics.
3. Middle Stage: Encompassing Classes 6 to 8 and ages 11–13 years, this phase will acquaint students with more abstract concepts in subjects like mathematics, sciences, social sciences, arts, and humanities.
4. Secondary Stage: Spanning Classes 9 to 12 and ages 14–18 years, this stage will be divided into two parts: Classes 9 and 10 forming the first phase, and Classes 11 and 12 constituting the second phase. These four years will emphasize multidisciplinary study, critical thinking, and offering multiple subject options.

Additionally, instead of annual examinations, students will undergo assessments at the end of Classes 2, 5, and 8. While board exams for Classes 10 and 12 will continue, they will be revamped, with standards set by an assessment body named PARAKH (Performance Assessment, Review, and Analysis of Knowledge for Holistic Development). These exams will be conducted biannually, allowing students up to two attempts and comprising both objective and descriptive components. The policy seeks to lighten the curriculum burden, fostering a more interdisciplinary and multilingual approach for students. This means that students can blend subjects such as fashion studies with physics or explore the chemistry behind bakery. Report cards will offer a comprehensive view of students' skills. Additionally, coding will be integrated into the curriculum starting from Class 6, and experiential learning methodologies will be embraced. Furthermore, the Midday Meal Scheme will be expanded to include breakfast, with a heightened focus on students' health, particularly their mental well-being, through the engagement of counselors and social workers

HIGHER EDUCATION

NEP 2020 introduces a 4-year multi-disciplinary bachelor's degree program in higher education with various exit options, including professional and vocational pathways, structured as follows:

1. Certificate upon completion of 1 year of study.
2. Diploma upon completion of 2 years of study.
3. Bachelor's degree upon completing a 3-year program.
4. Preferred option: A 4-year multidisciplinary bachelor's degree.

MPhil courses will be phased out to align with Western educational models. The establishment of the Higher Education Commission of India (HECI) aims to regulate higher education and increase the gross enrollment ratio. HECI will comprise four verticals:

1. National Higher Education Regulatory Council (NHERC), overseeing higher education, excluding medical and legal fields.
2. National Accreditation Council (NAC), serving as a "meta-accrediting body."
3. Higher Education Grants Council (HEGC), responsible for funding universities and colleges, replacing several existing bodies.
4. General Education Council (GEC), tasked with defining "graduate attributes" and developing a National Higher Education Qualification Framework (NHEQF). Professional standard-setting bodies (PSSBs) like the National Council for Teacher Education will operate under the GEC. Other PSSBs include councils such as the Veterinary Council of India, Council of Architecture, Indian Council of Agricultural Research, and National Council for Vocational Education and Training.

The National Testing Agency will expand its role to conduct entrance exams for university admissions nationwide, in addition to existing exams like JEE Main and NEET. The policy encourages higher education institutions, including IITs, to diversify their teaching methods and aims to internationalize education by allowing foreign universities to establish campuses in India. Fees for both public and private universities will be regulated.

ITI ADMISSION IS DONE BY DVET DIRECTOR OF VOCATIONAL AND TRAINING

• +2 LEVEL VOCATIONAL EDUCATION
• +2 LEVEL BIFOCAL VOCATIONAL EDUCATION
• CERTIFICATE COURSES OF MSBVE

FOREIGN EDUCATION

-VidyarthiMitra News Desk

1. International Branch Campuses:

• NEP 2020 permits foreign universities to establish campuses in India and allows IITs to set up branches overseas.
• The policy aims to leverage international education to restore India's stature as a Vishwa Guru.
• Scholars have raised concerns about the effectiveness of importing foreign higher education institutions.

2. Teachers:

• By 2030, a 4-year Bachelor of Education will be mandatory for teaching.
• Efforts will be made to strengthen and enhance transparency in the teacher recruitment process.
• The National Council for Teacher Education will develop a National Curriculum Framework for Teacher Education by 2021 and establish National Professional Standards for Teachers by 2022.

3. EdTech:

• NEP 2020 encourages the development of educational technology tools by providing guidelines and support to EdTech companies and startups.
• The National Educational Technology Forum (NETF) aims to facilitate discussions on technology's role in enhancing learning outcomes.
• In September 2021, NITI Aayog partnered with Byju's to offer free access to its tech-driven learning programs to engineering aspirants from 112 districts.

4. Indigenous Knowledge:

• NEP emphasizes the importance of India's native knowledge traditions.
• Various initiatives focusing on Indian Knowledge Systems (IKS) have been initiated to guide research and promote understanding of indigenous knowledge.
• Promotion of International Collaboration

• The candidate should have a minimum attendance of 50% in the previous academic year and there should not be a gap of more than 2 years between the academic years.

CCB Scholarship 2024 Announced: Financial Aid for Meritorious Students

-VidyarthiMitra News Desk

The Combined Counselling Board (CCB) has officially announced its scholarship program for 2024, aiming to provide financial assistance to meritorious students seeking higher education in CCB-affiliated colleges across India. The CCB Scholarship 2024 caters to students who have shown exceptional academic prowess and are set to pursue technical or professional courses approved by notable educational authorities such as AICTE, UGC, or the Ministry of Education of India (MHRD).
With scholarship amounts ranging between ₹60,000 to ₹2,50,000 per annum, depending on the chosen course and its duration, the initiative is designed to significantly reduce the financial burden on students and their families. Additionally, the scholarship will be directly adjusted against the student's college fees, providing further relief. Beneficiaries will also enjoy a discount on hostel fees, making it easier for them to manage living expenses while focusing on their studies. Eligibility criteria for the CCB Scholarship are comprehensive, ensuring a wide range of students can apply. Applicants must have successfully passed Class 10, 12, or are in the final year of undergraduate or postgraduate courses from a recognized board, college, or university. They must also be willing to take admission in CCB-affiliated colleges offering technical or professional courses.
The application process is straightforward, inviting eligible candidates to apply through the official CCB portal by April 15, 2024. Required documents for the application include the marksheet of the previous qualifying examination, two passport-size photographs, a counseling letter from CCB, and a valid identity proof such as Aadhaar card, Voter ID, or PAN Card. Selection of candidates will be based on the fulfillment of the eligibility criteria, ensuring that the scholarships are awarded to the most deserving students. The CCB Scholarship 2024 presents a significant opportunity for students across India to pursue their educational aspirations without the worry of financial constraints, reinforcing the CCB's commitment to fostering academic excellence and supporting the nation's future professionals.

Post Matric Scholarship for Minority Students – Maharashtra

-VidyarthiMitra News Desk

The Post Matric Scholarship for Minority Students aims to provide financial assistance to students from minority communities to continue their education beyond the 10th grade. Here are the detailed specifics about the scholarship:

Important Documents
Mark sheets of the previous qualifying examination.
Income certificate issued by a competent authority.
Domicile certificate of Maharashtra.
Minority community certificate.
Bank passbook linked with Aadhaar.
Aadhaar card.
For more detailed information, you can visit the official DHE Pune website here (DHE Pune).
This scholarship helps minority students overcome financial barriers and encourages them to pursue higher education without interruptions.

The High Court has directed the Bihar government to treat contract teachers and guest teachers equally, stating that there should be no distinction between them. Additionally, the court has put a hold on the BPSC TRE-3.

-VidyarthiMitra News Desk

On Wednesday, the Patna High Court directed the Bihar government to ensure equal treatment for both "contract teachers" and "guest teachers" in the Bihar Public Service Commission's (BPSC) recruitment process, resulting in the suspension of the BPSC's Teachers Recruitment Exam (TRE)-3.

Justice Anjani Kumar Sharan, in response to petitions, emphasized that both contract and guest teachers fulfill identical teaching responsibilities, with no distinction between their roles. The court mandated the state government to decide within a month to award guest teachers five marks for each year of service, up to a maximum of 25 marks, mirroring the preferential treatment given to contract teachers.

Additionally, the court halted the advertisement No. 22/24 dated February 2024 (TRE-3).

This ruling from the high court stands to benefit over 4,000 guest teachers in Bihar, enabling them to participate in the BPSC teachers' recruitment exam with equal preference marks as contract teachers. The dismissal of guest teachers, effective April 1, 2024, stemmed from an order issued by the education department.

Recently, the Director of Secondary Education instructed district education officers to terminate the services of guest teachers employed on fixed remuneration, as per an education department directive issued on January 25, 2018.

This decision was prompted by the recruitment of 94,738 teachers in higher secondary schools, rendering the need for guest teachers obsolete. Previously, guest teachers received Rs. 1,000 per working day, capped at Rs. 25,000 monthly. The court observed that guest teachers, akin to contract teachers, were involved in administrative tasks like elections and exam evaluations. However, initially, the BPSC did not extend the same preference marks to guest teachers in its TRE 3.0 advertisement.

Furthermore, the High Court noted that the BPSC had canceled both sessions of the TRE 3.0 conducted on March 15 due to allegations of question paper leaks. The BPSC was expected to announce a new examination date post-elections.

SSC CHSL 2024 Tier 1 Examination Dates Announced, Admit Card Release Expected Soon on ssc.gov.in

-VidyarthiMitra News Desk

The Staff Selection Commission (SSC) is set to conduct the Combined Higher Secondary Level Examination (CHSL) in July 2024, with the admit cards expected to be available soon on the commission's official website, ssc.gov.in. According to the updated schedule, the SSC CHSL tier 1 examination (computer-based examination or CBE) is scheduled to take place from July 1st to July 11th. This examination aims to fill approximately 3,712 vacancies across various user departments under the central government. To download the SSC CHSL admit card 2024, candidates can follow these steps:
1. Visit the official website of the commission, ssc.gov.in.
2. Navigate to the admit card section.
3. Locate and click on the tier 1 admit card download link.
4. Enter the required login credentials.
5. Verify the details and download the admit card.
The admit card will contain essential information such as the exam date and time, venue details, and reporting time. Candidates must carefully review their personal details, including name, photograph, and signature, and report any discrepancies to the commission immediately. Additionally, the admit card will include important instructions for the examination day, which candidates must adhere to in order to ensure a smooth examination process. For further information and updates, SSC CHSL aspirants are encouraged to visit the official website of the commission.

Queen's University Belfast Launches Racial Equity Programme to Address Cultural Disparities

-VidyarthiMitra News Desk

Queen's University in Belfast has launched a Racial Equity Programme aimed at addressing cultural disparities within the institution. Led by the Racial Equity Champions Network, this initiative seeks to drive transformative change in promoting ethnic and cultural equality at Queen's University.

The university recently hosted a conference on Race Equality in Higher Education, where panel sessions featured students, academics, researchers, and practitioners discussing solutions-oriented approaches to advancing race equality in education, research, and societal engagement.

The need for such action is underscored by recent research findings from the Ethnic Representation Index 2023, highlighting significant racial disparities among student populations and academic staff in UK universities. Approximately a quarter of universities report a student population of Black, Asian, and Minority Ethnic (BAME) individuals exceeding 50%, with a third having populations exceeding 40%.

In response to these findings, Queen's University and 77 other institutions have committed to Advance HE's Race Equality Charter (REC), which aims to identify and tackle barriers faced by BAME staff and students. Queen's University remains dedicated to promoting race equality, aligning its efforts with initiatives such as the REC, Queen's Strategy 2030, and the UN Sustainable Development Goals.

Professor Karen McCloskey, academic lead for the Race Equality Charter at Queen's University Belfast, emphasized the institution's commitment to fostering an inclusive academic environment that enhances the comfort and sense of belonging for students from diverse ethnic backgrounds.

A Transformative Journey: Life at Macquarie University as an Indian Student

-VidyarthiMitra News Desk

Life at Macquarie University as an Indian student has been a transformative journey marked by both personal and professional growth. Opting for a Bachelor of Medical Sciences with a minor in philosophy seemed like the ideal fit for my aspirations, drawn to the university's ethos of fostering creativity and independent learning.

However, transitioning from a structured high school environment to the self-directed culture at Macquarie proved daunting. The university's DIY approach, while empowering, initially felt intimidating. Suddenly, success depended solely on my ability to navigate challenges independently, a stark shift from the supported atmosphere of high school.

Yet, this journey of self-discovery brought rapid maturation. With each semester, I gained confidence in my ability to tackle obstacles autonomously, evolving into my own best advocate. Embracing self-teaching and adopting a proactive approach to learning imbued my academic pursuits with creativity and innovation, enriching my perspective on subjects and course materials.

Navigating the admissions process, though daunting, was made manageable with the guidance of dedicated counselors. From submitting academic documents to demonstrating financial eligibility and English proficiency, meticulous organization and adherence to deadlines were paramount. Securing a scholarship further eased the financial burden, enabling me to focus on my studies.

Australia, with its renowned educational standards and inclusive society, emerged as my top choice for further studies. The vibrant campus environment, coupled with post-study work opportunities, solidified my decision. Despite initial adjustments to the quieter suburban life compared to bustling Delhi, Australia's warmth and sense of community quickly became evident. Beyond academia, encounters like the remarkable assistance received at Service NSW exemplified Australia's hospitality. However, managing living costs, especially as an international student, posed a significant challenge, mitigated by part-time employment opportunities.

Studying abroad has profoundly shaped my perspective, exposing me to diverse cultures and broadening my understanding of the world. Interacting with individuals from varied backgrounds has been enlightening, reinforcing the value of inclusivity and humility in fostering meaningful connections.

AmberScholar Scholarship Program: Financial Aid for International Students

-VidyarthiMitra News Desk

Amber, a prominent global student accommodation platform, has launched the third iteration of its amberScholar scholarship program. This initiative aims to support students commencing academic journeys in the UK, USA, Ireland, or Canada for the upcoming September intake. The scholarship offers a substantial financial boost, totaling $15,000, distributed among three recipients based on merit.

Scholarship Breakdown and Awards
The amberScholar scholarship divides $15,000 as follows:
• The top recipient receives $7,000.
• The second-place winner gets $5,000.
• The third-place recipient is awarded $3,000.

Eligibility and Application Requirements
The scholarship targets students accepted into academic programs in the specified countries. Applicants must submit a compelling "Statement of Purpose" (SoP) outlining their goals and ambitions. The SoP can be in various formats, including video essays or graphical presentations, distinct from university admission statements. Demonstrating financial need within the SoP is crucial.

Application Process
Interested students can apply through the official amberScholar scholarship website by clicking "Apply Now". The process involves completing forms and submitting the unique SoP. The submission deadline is August 31, allowing applicants ample time to prepare.

Selection and Announcement
Applications undergo a review with shortlisted candidates announced by September 15. This prompt announcement enables students to plan their academic and financial arrangements accordingly.

Significance of the amberScholar Scholarship
The amberScholar scholarship program provides essential financial support for international students pursuing academic goals abroad. This aid reduces financial barriers, facilitating access to quality education for deserving students.

About Amber
Amber is globally recognized for its commitment to providing quality student accommodation. Through this scholarship, Amber supports students' academic and personal growth, reinforcing its role in student accommodation and educational support.

For further details and to apply, visit the amberScholar scholarship website. This program not only alleviates financial burdens but also underscores Amber's dedication to fostering educational accessibility and nurturing future leaders.

Exploring Post-Graduation Opportunities: Indian Students in Canada

-VidyarthiMitra News Desk

Study abroad opportunities have become increasingly popular among Indian students, with Canada emerging as a highly sought-after destination for higher education. Renowned for its top universities, diverse multicultural environment, and progressive policies, Canada attracts a significant number of Indian students looking for quality education and promising career prospects.

Upon completing their studies in Canada, Indian graduates have a wide range of options to explore. From further academic pursuits to employment opportunities and even considering permanent residency, the post-graduation landscape in Canada offers numerous avenues for Indian students to carve out their paths toward success and personal fulfillment.

The array of postgraduate programs available to Indian graduates in Canada is extensive, catering to diverse interests and career aspirations. Popular destinations for further studies include the United States, the United Kingdom, Australia, as well as European countries like Germany and France. These universities offer specialized master's degrees, research programs, and Ph.D. opportunities across various disciplines, from engineering and technology to business and the humanities.

The experience gained during undergraduate studies in Canada provides students with valuable skills and knowledge that enhance their competitiveness in international applications. Canadian universities emphasize critical thinking, research skills, and intercultural communication, aligning well with the requirements of top universities worldwide. Additionally, many institutions offer opportunities for international exchange programs and research collaborations, providing valuable global exposure and fostering a strong academic network.

Studying abroad after graduating in Canada offers more than just acquiring an additional degree. It allows students to immerse themselves in a new culture, gaining invaluable insights into diverse perspectives and ways of life, which fosters personal growth and adaptability. Moreover, it enables students to develop a global network, connecting with peers and faculty from various backgrounds, which can be beneficial throughout their careers. Additionally, a degree from a renowned university abroad can significantly enhance an individual's employability, opening doors to international job opportunities or providing a competitive edge in the Indian job market.

However, the decision to pursue further studies abroad requires careful consideration. Students need to clearly define their academic aspirations, research programs that align with their career goals and interests, and carefully plan their finances, considering scholarship opportunities, tuition fees, and living expenses. It's crucial to thoroughly research application requirements for each university and program, including deadlines, standardized tests, and supporting documents needed for a successful application.

UK Retains Graduate Visa Route, Securing Benefits for International Students and Universities

-VidyarthiMitra News Desk

The UK government, under the leadership of PM Rishi Sunak, has decided to retain the graduate visa route, allowing international students to work or search for employment for two years post-graduation. This decision comes following recommendations from the Migration Advisory Committee (MAC), suggesting that the current form of the UK's graduate visa route should remain unchanged.

The rationale behind this decision is primarily linked to the significant financial impact that canceling the graduate route visa could have on universities across the UK. Experts warn that such a move could result in severe financial challenges, potentially leading to job losses, course closures, and a decline in research activities. Lord Karan Bilimoria, Chancellor of the University of Birmingham, emphasized the critical role of international students, particularly postgraduate students, in sustaining the financial stability of UK universities.

The statistics provided by the MAC report for 2024 highlight the substantial growth in the number of visas granted, particularly for postgraduate study. In 2023 alone, there was a significant increase in the number of graduate visas granted, with Indian nationals constituting a considerable proportion of these visa holders.

The financial contribution of international students, particularly through tuition fees, plays a vital role in supporting the UK higher education sector. The revenue generated from international students is essential for bridging funding gaps, supporting research activities, and sustaining the overall financial health of universities.

Furthermore, the impact of international students on the UK's economy extends beyond higher education institutions. The total revenue from education-related exports and transnational education activities is substantial, with international students playing a crucial role in this success.

However, concerns regarding immigration policies remain, with calls to exclude international students from net migration figures to accurately reflect their temporary status. The UK's attractiveness as a study destination for Indian students remains strong, driven by the quality of education and the perceived high standard of academic institutions.

Despite the ongoing debates surrounding international student policies in the UK, it continues to be a popular choice for Indian students. However, other countries such as the United States, Canada, and Australia are also gaining traction as attractive alternatives due to their student-friendly visa policies and welcoming environment for international students.

University of Sheffield Announces LLM Scholarships for International Students

-VidyarthiMitra News Desk

The University of Sheffield is pleased to announce the availability of two LLM scholarships for international students, each valued at £4,320 towards tuition fees. These scholarships are open to outstanding candidates pursuing full-time LLM programs, including the Sheffield LLM, LLM Corporate and Commercial Law, and LLM International Law and Global Justice pathways.

To qualify for these scholarships, applicants must be classified as overseas students for fee purposes and must hold an academic offer from the University of Sheffield for one of the specified LLM programs. Additionally, applicants must possess an application number assigned by the university.

Interested candidates are required to complete the International LLM Scholarship application form, which includes submitting a 2,000-word essay. The essay topic, 'Law alone cannot address all social problems. Discuss,' invites thoughtful reflection and analysis from applicants.

Applications for the scholarships will be reviewed alongside candidates' admissions applications. Successful recipients will be notified before the conclusion of July 2024.

The University of Sheffield holds a respectable position in the QS World University Rankings 2025, ranking at 105th place with an overall score of 59.1. With a diverse student body comprising over 11,000 international students, the university maintains a balanced representation with 46% enrolled at the undergraduate level and 54% at the postgraduate level. The approximate tuition fee for international students is £21,500.

PRINCIPAL'S DESK

Your Platform for Educational Insights and Opportunities

Welcome to the Principal's Desk, a dedicated space in epaper.VidyarthiMitra.org where educators, academic leaders, and administrators have the opportunity to share valuable insights, announcements, and opportunities with our esteemed readership. As a trusted platform committed to fostering collaboration and sharing knowledge within the educational community, we invite principals from colleges, universities, and educational institutions to contribute articles, announcements, and updates that are of relevance to students, parents, and fellow educators.

Are you a principal looking to showcase the unique offerings and achievements of your institution? Then **epaper.VidyarthiMitra.org** is the right place for you to publish articles, opinion pieces and announcements that resonate with our audience and contribute to the ongoing dialogue on education.

Whether you are seeking to reaching prospective students, announce new courses or programs, or highlight the achievements of your faculty and students, the Principal's Desk provides a platform to showcase the strengths and offerings of your college or university. Share information about admission procedures, scholarship opportunities, campus events, and more to engage with our readers and promote your institution.

Do you have job openings, faculty vacancies, or internship opportunities available at your institution? Then the perfect avenue to reach out to our diverse readership and connect with talented individuals seeking career opportunities in the field of education. Share details about job openings, eligibility criteria, application procedures, and deadlines to attract ideal and qualified candidates to your institution.

Submitting your article or announcement to the Principal's Desk is simple. Just send your content along with relevant images or graphics to our editorial team at **info@vidyarthimitra.org** and we'll review it for publication in our next edition. Please ensure that your submission adheres to our editorial guidelines and is free from factual, grammatical errors and plagiarism.

If any college or institution wishes to conduct educational fair or career guidance seminars feel free to contact us. Join us at the Principal's Desk and be a part of the conversation that shapes the future of learning and academic excellence. We look forward to hearing from you and sharing your valuable insights with our readership.

Sincerely,
Mr. Ravindra Kamtam

STUDENT CORNER

Your Voice Matters!

Dear Students,

Welcome to the Student Corner of **epaper.VidyarthiMitra.org** , where your queries, doubts, and voices find a platform to be heard and addressed. We understand that navigating the educational landscape can sometimes be daunting, but worry not, for we are here to assist you every step of the way.

If you find yourself grappling with questions about college admissions, entrance exams, reservations, government documents, syllabus for entrance exams, or anything related to education both in India and abroad, this is the space for you. Feel free to ask your queries here, and our team of experts will endeavor to provide you with accurate and insightful answers.

Moreover, we value your thoughts, views, and opinions on the education system. Whether you have suggestions for improvement, insights to share, or experiences to narrate, we encourage you to express yourself here in a professional and articulate manner.

Your participation matters! The most frequently asked questions will be featured in the upcoming edition of our newspaper, with acknowledgment and credits will be granted to the students who posed them. This way, not only do you get your queries resolved, but you also contribute to enriching the knowledge of your fellow students.

Submitting your work to the Student Corner is easy. Simply send your doubts and queries to our editorial team at **info@vidyarthimitra.org**, and we'll review them for publication in our next edition.

Engage with your fellow students and readers by participating in discussions, sharing feedback. The Student Corner is more than just a platform—it's a community where students come together to connect, collaborate and learn at the same time. Remember, your education journey is unique, and we are here to support you every step of the way. So, don't hesitate to reach out, engage, and make your voice heard.

Best Regards,
Mr. Ravindra Kamtam
